# GET-ON-IT™

OIL & RUST

## CONCRETE SPILL REMEDIATION KIT

The **BONDED Get-On-It™** Spill Kit is the contractors system to *quickly respond* to accidental oils spills on new concrete. Concrete is porous and the longer the staining agent is allowed to dwell & penetrate the more permanent the stain becomes and expensive to reverse. Your **BONDED Get-On-It™** Spill Kit has everything you need to solve the problem, save time and stay on budget!

### KIT # OIL-8G-12
